Xerox color multi-function systems can take set them off, all from one launching pad.

Xerox color is a blast. And Xerox color multi-function systems are here to bring remarkable power to everyone in your office. By putting color into one system that prints, copies, scans, faxes and e-mails, you get color that's truly productive. And by also providing those functions in black and white, you'll meet all your document needs

FLORIDA. INNOVATION HUB OF THE AMERICAS.®

Florida researchers are developing a fiber optic device that quickly and accurately detects pathogenic organisms and microbial toxins in food, water, air and on surfaces. The portable unit allows anyone - with or without a scientific background - to test samples and see results within minutes. Visit **eflorida.com/mit** to discover why innovative businesses like yours belong in an innovative state like Florida.

Southwest Florida

Big things are happening in southwest Florida. With boundless entrepreneurial opportunities, state-of-the-art infrastructure, and a highly skilled labor force, it's only natural that more and more technology and life sciences companies are building their future on our shores.

Contents

Volume 108, Number 3

6 **Index**
People, companies, and organizations mentioned in this issue

10 **From the Editor**
Financiers remain disinclined to invest in truly innovative technologies.

13 **Letters**
Your thoughts on Google, NASA, happiness, and our redesign.

README
Read before operating this magazine

14 **Research Funding: Get Worried**
Current cuts in basic-research support could not come at a worse time.

15 **Dear FDA: Get Well Soon**
What's wrong with the regulatory agency and how to fix it.

15 **Fund a "Moonshot" for RNAi**
Translating promising science into new therapies.

17 **Let the Market Decide**
Some would ban cat cloning—but pet lovers are willing to pay for it.

FORWARD
Short items of interest

18 **Cybercash on Vacation**
Will financial cryptography ever happen?

21 **The Talented Mr. Mitnick**
A notorious hacker turns security guru.

22 **Engineering Climate**
How technology can help the planet.

24 **Declaring Biowar on Cancer**
Viruses may be a mighty new weapon.

25 **iPod Impact**
Apple's stock price has soared.

26 **Search for Couch Potatoes**
Results: automatic. Keywords: optional.
And more...

Tech and Finance 2005

There is no better way to get a feel for the future of emerging technologies than by looking at what is getting funding—and what isn't. Though the private and public markets are once again bullish on certain technologies, federal funding for nondefense R&D is in decline, and that has many worried. A team of *Technology Review* editors finds hope, but also danger, for tech financing.

BRIEFCASE
Business case studies

28 **Microsoft: Getting from "R" to "D"**
The software giant's Beijing lab is spearheading a new way to turn research into products.
By Robert Buderi

31 **Genetic Savings and Clone: No Pet Project**
Can it cash in on cloned cats?
By Wade Roush

33 **Cycorp: The Cost of Common Sense**
How do you survive when it could take decades to build your product?
By Lamont Wood

MEGAPHONE
Something worth shouting about

27 **The Darwinian Interlude**
Biotechnology will do away with species. Good.
By Freeman Dyson

86 **The Technology Budget Creep**
U.S. households are spending more on technology products.
By Maryann Jones Thompson

OBITUARY

88 **A Portraitist of the Earth**
Arthur Robinson merged science and art to overcome one of mapmaking's greatest challenges.
By Andrew P. Madden

What's New at technologyreview.com

The *Technology Review* Index, which has been developed by the editors of *Technology Review* in conjunction with Standard and Poor's, includes the *TR* Large-Cap 100 and its sibling, the *TR* Small-Cap 50. These two indices will track both the most powerful innovators and the up-and-comers in the 10 most innovative industries in the global economy.

Every month, the magazine will contain a page that discusses the performance of the indices, their constituent industries, and any of their component stocks that stand out in particular.

But the indices themselves will live and breathe online, where they will be updated daily. What's more, our site will use the indices as the reference point of an ongoing discussion about the people, companies, technologies, and financial rumblings that make a difference to anyone invested in the world of emerging technologies.

About Technology Review *Technology Review*, the oldest technology magazine in the world, is published by Technology Review, Inc., an independent media company owned by the Massachusetts Institute of Technology. Founded in 1899, *Technology Review* describes emerging technologies and analyzes their commercial, economic, social, and political impact for an audience of senior executives, researchers, financiers, and policymakers, as well as for the MIT alumni. In addition, Technology Review, Inc. produces technologyreview.com, a website that offers daily news and opinion on emerging technologies. It also produces live events such as the Emerging Technologies Conference. The views expressed in *Technology Review* are not necessarily those of MIT.

Roll over your 401(k). It's as easy as one, two.

1. Call a Schwab Rollover Specialist.
2. Choose one of our diversified portfolios.

Opening a Schwab Rollover IRA is smart and easy. A Schwab Rollover Specialist will guide you every step of the way. In addition, consider one of our five Schwab Portfolios,™ designed to instantly diversify your Rollover IRA. Just choose the one that's right for you. And, for a limited time, the Schwab Rollover IRA is available with no annual IRA account fee, regardless of the amount you roll over. So act now.

No annual IRA account fee.
Act now on this limited-time offer.

Call 1-800-790-3802 today.

charles SCHWAB

Schwab is waiving the $50.00 annual IRA account service fee on any new Rollover IRA opened through this promotion by April 15, 2005. New Rollover IRAs can be opened for any eligible member of a client's household. A minimum of $10,000 is required to invest in Schwab Portfolios. Other fees may still apply, including mutual fund management fees and expenses, brokerage commissions, and other fees, as described in the *Charles Schwab Pricing Guide for Individual Investors* ("Pricing Guide"). This promotion only waives the annual IRA account service fee for Independent Investors described in the Pricing Guide. Diversification does not protect against market loss.
